

We would like to update you on the conference

## "Trends in Harmonic Analysis"

to take place in Strobl near Salzburg from June 18 - 22, 2007

<http://univie.ac.at/NuHAG/strobl07>

## registration

If you plan to attend the conference and have not yet registered, please register on-line at the conference website <http://univie.ac.at/NuHAG/strobl07/registration> and enter the requested data. So far we have about 80 preliminary registrations. The capacity at the conference center is limited to about 100 guests. We will start to accept talks by early March until the slots are filled.

## titles and abstracts for talks

Please provide (at least a short abstract, about 1 page) as soon as possible. The final deadline is April 30. Notice: You have to be registered before you can submit your abstract!

Please go to <http://univie.ac.at/NuHAG/strobl07/talks> and enter your name. After you have entered general information about your talk you can submit your abstract in TEXT and/or TeX format. In order to limit the number of talks resp. parallel sessions we encourage poster presentations.

## accommodation

All participants can/will be accommodated at the conference center "BIFEB" (Bundesinstitut für Erwachsenenbildung) <http://www.bifeb.at>.

There are single rooms and double rooms. (We would appreciate information about room sharing). The costs for a single room with full board are up to 60 Euro per day. Of you want to stay in a hotel in the neighborhood (e.g. because you bring your family) this has to be arranged separately.

## registration fee

The registration fee will be 100 Euro. Deadline for payment is May 15. We will set up an account for payment and provide payment information in time. The room assignment can be done only after we have received the registration fee.

## transportation

As Strobl is about 3 hours from Vienna, we will organize a bus for the transportation from Vienna (airport and central train station) to Strobl on Sunday, June 17, around 1 or 2 p.m. If there is sufficient demand, we may also be able to organize a bus for the return trip to Vienna on Saturday, June 23, arriving in Vienna around noon. In addition, there is also public transportation to Salzburg (bus), Vienna (bus and train, ca. 4 1/2 hours), and Munich airport (bus and train and regional train, ca. 4 - 5 hours),

schedules may be provided for typical travel times. Participants who arrive earlier or leave later, should find their own accommodation for the extra days either at BIFEB or Vienna, for example. Some helpful addresses are

<http://info.wien.at/article.asp?IDArticle=10069>

## financial support

We hope to receive some funding from the new European network "Complex and Harmonic Analysis" to be established by the European Science Agency. Funding requests may be entered by clicking the appropriate field in the registration mask.

## help desk

The conference website is <http://univie.ac.at/NuHAG/strobl07>. It will be updated regularly. We urge you to use for administrative and special questions the following contact address (and NOT that of the mainorganizers):

[strobl07.mathematik@univie.ac.at](mailto:strobl07.mathematik@univie.ac.at)

It will go into action about one week from now.

Looking forward to seeing you in Strobl.

The organizers Hans G. Feichtinger  
Karlheinz Gröchenig

## organized by:

- NuHAG :: Numerical Harmonic Analysis Group :: University of Vienna :: Austria
- the **Mathematische Zirkel der Universität Wien**
